3. logistics
4. supply and value chain technologies.

we power Africa
from within.

Our Philosophy

Focused Vision

... is to be the very best creative and innovative, integrated engineering service provider group in Africa.

Steadfast Mission

We leverage the potential of integrated engineering to empower people and businesses achieve their set goals. By providing high quality products and services that enriched with innovative, practical solutions, and actionable strategies.

Core Values

- Trust
- Innovation
- Credibility
- Dedication
- Reliability
- Quality.

Our Ethos

Highly Motivated

... and centered around, growing by learning new technology thus being able to offer our clients the best solutions.

Work Ethic

Strong, Dependable and Responsible.

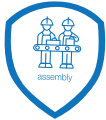

Positive Attitude

We possess a positive work attitude, that is highly motivated.

Our Services

Components Manufacturing with state of the art facilities at Bagamoyo Industrial Area

Sub-assembly production

Warehousing and depot services with facilities at Bunju B and Kigamboni in Dar es Salaam

Custom Assembly of Equipments on 700m² facility at Mbezi Juu in Dar es Salaam

Final Pack-Out

Drop Shipment

Kitting

Sourcing

Inventory and Stocking Programs

Inspection and Certifications.

Components Manufacturing

Here at Riverton we provide advanced manufacturing infrastructure and techniques to bring you complete products or components to the market; **better, faster and smarter.**

Recognized in Tanzania for operational excellence and quality in this regulated market, our manufacturing services seamlessly take you from; product launch - **to** - high-level systems assembly - **to** - ultra-high volume assembly.

We are deeply invested in automation to connect equipment, people and processes – improving productivity, quality, responsiveness and decision making across the product lifecycle.

General Products

Mechanical Equipment and Parts			
Pumps	Seals & Gaskets	Gearboxes	Compressors
Valves	Heat Exchangers	Couplings	Hoists
Blowers	Filters–Filter Elements	Bearings	Air cannons
Fans	Expansion Joints	Greasing Units	Backstops
Bladders	Oil Filtration Rigs	Filter Bags	Magnetic Separator
Cylinders	Acoustic Cleaner	Nozzles	Hoses

Electrical Equipment and Parts			
Motors	Speed Monitoring	Switches	Transformers
Transducers	Circuit Breakers	Relays	Actuators
Encoders	Controllers	Analyzers	Transmitters
Cables	Load Cells	Fuses	Batteries

Electromechanical Equipment and Parts

Kiln Cameras	Flow meters	Pressure Gauges	Kiln Scanners
Gas Analyzers	Ball Mill Monitoring	Thermocouples	Thermowells
Speed Monitors	Infrared Thermometer	Level Switches	Lab Equipments
Touch Screens	Temperature Gauges	Spectrometer	Smoke Alarms

Material Handling Systems and Parts

Conveyor Belts	Pulleys	Belt Cleaners	Earth Moving Machinery Spares
Heat Resistant Belt	Drum Motors	Idlers	Bucket Elevators
Sprockets	Chains	Rollers	Bulk Handling Equipment

Sub-Assembly Production

We do production and collection of components, combined to form a system that performs a role or process better for our customers.

At Riverton Africa Group, we have become recognised in Tanzania as a specialist supplier of miniature sub-assemblies for a range of customers.

Combining precision manufactured miniature components with our production services and expertise is our key competence. We have a huge range of miniature components to draw upon, in addition to the design of custom sub-assemblies.

Our sub-assemblies are unique to each customer. With a selection of components to perform a particular function, the output performance required by the system is achieved. Working with organisations of all sizes, we are happy to produce low production runs through to large volume OEM production.

Warehousing and Depot Services

We own and operate fully fledged warehousing and depot points across Tanzania for our customers.

Need your freight prepared for distribution or delivery to fulfillment centers or customers? We offer a variety of services to streamline your supply chain.

We believe that we best serve our clients by freeing their time to attend to their core business – while we provide a balanced solution that creates exceptional results. To deliver the warehousing and logistics outcomes that fit your business, we use various warehousing

methodologies, have climate controlled storage, adaptable productivity / analytical tools, and provide real time information.

Our warehousing services include highly value-added features such as:

- Freight consolidation and deconsolidation
- Pick and pack
- Package labeling and barcoding
- Quality check
- Light assembly
- Warehouse management system integration.

Plus, we can implement our technology-based solutions with a wide range of transportation services, giving you outstanding service, value and control that can turn your warehousing needs into a fully integrated supply chain.

Custom Assembly Services

Our mission at Custom Assembly is simple: to provide high-quality services in a timely manner. We hope you'll find what you're looking for.

We strive to make the production and assembly processes easier and more convenient for our clients, and that is why we offer in-house assembly and kitting solutions. Our custom assembly services are a great way to save time, money, and labor by integrating assembly at the most opportune time for your production process.

By letting our team handle the basic assembly of your components, you can enjoy several benefits:

- More efficient assembly of your final product
- Time and labor savings
- Fewer parts lost in shipping
- Multiple points of quality control
- A streamlined production process

Final Pack-Out Services

Our staff is professionally trained and can handle any property relocation, and storage situation, involving water, fire, mold, or smoke damage. We are the leaders in property packing, documenting, moving and storing; getting it and keeping it out in Tanzania.

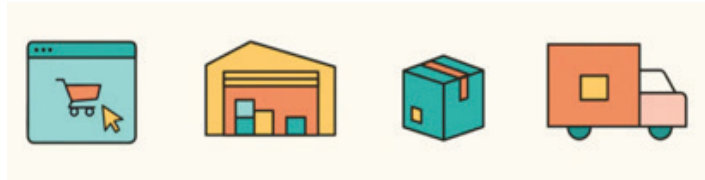

We provide vital services to the insurance community, and restoration contractors, by preserving the most valuable and treasured items. We meet the needs of both residential and commercial customers with or without an insurance pack-out, no matter how urgent the situation.

If you find yourself in a situation where moving your property is a dire emergency yet the premises are damaged from water, fire, biohazards or bad weather, our emergency pack-out services are exactly what your business needs.

Drop Shipment Services

Our drop shipping services help our customers create and manage relationship between customer-facing stores and suppliers.

We manage buying inventory and fulfillment logistics from a third party, instead of warehousing and shipping the products themselves.

Kitting

We do provide superior kitting services to Large, small, simple and complex companies in Tanzania.

Outsourcing your company's kitting works can be a cost - effective way to meet your organizational goals and accommodate your business needs.

Popular products that we frequently provide kitting services on include:

- Beauty Products and Cosmetics
- Media Kits
- Nutritional Supplements
- Subscription Box Programs
- Electronic Items
- Multi-level Marketing Kits
- Product Samples
- Training & Marketing Materials

Sourcing Services

Our goal is to help small and medium sized businesses with product sourcing from all over the world, with specialities from China, Germany, United States, Turkey, India, EU, etc.

Our sourcing services set up is here:

• Product Sourcing

No charge. There are some sourcing companies that will charge a fee on the outset, regardless of your decision to move forward or not. Riverton Group believes initial product sourcing services should be free to you. Your personalized sourcing agent will find the best manufacturer for you and your products.

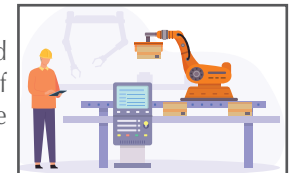

• Samples

Ordering samples from various manufacturers can become expensive and quarky. Riverton's sourcing agent will find a variety of samples for you, box into a single box and send it to you. You pay for the samples and shipping – there are no other charges. If you want a private label product, your samples will arrive just as if they were manufactured for sale.

• Product Production Follow-Up

This is a very time consuming process and one that you do not need to concern yourself with doing. Riverton will coordinate everything for you for a single fee.

• Quality Inspection as part of Product Sourcing

Riverton believes in a 3rd party, independent inspection agency. In the case of product defects, Riverton agent will be meeting with the manufacturer to resolve any issues. We even offer a 1 on 1 product inspection – each individual product inspected for defects

• Shipping

Air, sea or express shipping options are available. Riverton's freight forwarding services will ensure all documentation and products arrive safely in your offices in Tanzania.

Inventory and Stocking Programs

End the headaches, inefficiencies and high costs involved with stocking manufacturing components. Riverton's inventory stocking program can save you time, money and streamline your manufacturing process.

Contact a Riverton customer service expert today and design an inventory strategy that anticipates and meets your production needs.

We'll keep your parts in stock, storing them in our warehouse and shipping them as needed to keep your assembly line humming.

• Why Riverton's Inventory and Stocking Program?

When inventory runs low it can bring production to a screeching halt, so let Riverton take on the burden of inventory management so you can focus your energy on bigger tasks, like building your business. Our program works for any size business, whether you're a large established company or a start-up with limited funds and warehouse space in Tanzania

• What is our Special Solution?

A Riverton manager is assigned to each custom project, which means you always have someone to call with questions. A tracking number, assigned to each project, allows your manager to follow your order step-by-step through the process. If you're looking for finishing options, Riverton can then box up your final product and ship it for you, making the process easy and hassle-free.

Choose Riverton as your custom manufacturing partner and get the quality product you envision every time. Contact Us Today.

Inspection and Certifications

Riverton is a leading provider of processing, managing seller-buyer testing, inspection and certification services. Agile, ambitious and responsive, with our global and regional partnerships, we are entrepreneurs building a competitive challenger in the market.

We offer analytical solutions to our customers that ensure the compliance, safety and authenticity of food products exported or imported to Tanzania.

We do process for our customers import and exports with independent and government inspection and testing services to secure the world's commodity supply chains.

We help our customers facilitate trade and enhance product conformity. We do our services in the following sectors:

• **Agricultural Inspection & Testing**

Our inspection and testing services for agricultural commodities help clients mitigate risk, comply with contractual obligations, and make their businesses more transparent and sustainable.

• **Food Safety Testing**

Riverton provides state-of-the-art and reliable analytical services to guarantee food safety along the entire food supply chain.

We provide robust analytical methods that help businesses to better control their food supply chain, with a strong focus on efficiency and response time, as well as assistance in managing crises, urgencies and specific food safety issues. This is achieved through continual investment in research and development, together with a flexible and reactive approach to our client's needs.

• **Minerals and Metals**

We provide services across the entire minerals and metals life cycle in Tanzania. We optimize relevant systems and processes, provide inspection and sampling services, and guarantee swift and reliable testing and certification.

Poor quality minerals and metals can be costly and damaging for the industry and the environment. Our experienced, highly reactive network of experts and laboratories enables clients to verify product conformity and reduce risks all around.

- Auditing
- Container Inspection
- Tally Services
- Weighing (Truck scale, belt scale, wagon scale, etc)
- Barge Gauging

- Draft Survey
- Due Diligence Inspection
- Hold Cleanliness inspection
- Hose Testing Supervision
- Pre Shipment Inspection
- Inspection
- Sample Preparation
- Sampling
- Blending Supervision
- Sizing
- Moisture Determination
- FPM/TML
- Supervision of Sampling
- Mechanical Sampling Supervision
- Warehouse Inspection

• **Consumer Goods Inspection & Testing**

Ensure the quality and compliance of your products as well as the reliability and sustainability of your supply chain with our testing, inspection, and certification services.

Riverton's network of experts ensure that your products conform to your specifications and any relevant standards for a wide range of consumer goods, including softlines, hardlines, electrical and electronic products.

We help you guarantee that the quantity, specifications, measurements, materials, and visual appearance of your product complies with your order. We also verify that packaging, labelling, instructions and markings are in accordance with mandatory standards, and that your supplier operates to contractual requirements.
